Why TeleNavTrack?

TeleNavTrack maximizes the productivity of your workforce. It provides you and your employees with the tools to get more done.

Using your GPS enabled BlackBerry® or mobile handset, TeleNavTrack provides your business with features such as:

- GPS Tracking and dispatching
- Wireless Forms
- Wireless Barcode Scanning
- GPS Navigation
- and much more...

Using a password protected website, you can login and view the locations of your employees, run reports, and much more.

Maximize the productivity of your business anytime from anywhere.**

Service Requirements

- Nextel GPS phone or BlackBerry 7520
- Data Service Plan
- Internet connected PC
- Barcode scanner where applicable

Pricing

- Starting at: \$9.99/handset/month***
- One-time setup: \$19.99/handset

GPS Tracking

TeleNavTrack tells you where your employees are and where they have been.

GPS Reporting

You can run detailed reports about GPS locations, speeding, stop intervals, time cards and much more.

Wireless Forms

Wireless forms allow your employees to capture data from the field and send it to your office electronically, ready to view. You can create and deploy customized wireless forms for timesheets, invoices, parts ordering and more.

Wireless Barcode Scanning

Scan barcodes using wireless Bluetooth technology. Monitor and catalog parts, inventory and supplies. Quickly, accurately and efficiently capture information about:

- Proof of Delivery
- Inventory Tracking
- Asset Location

GPS Navigation

Receive audible turn-by-turn GPS directions through your speakerphone similar to an in-car navigation system.

Automatic Rerouting

TeleNavTrack automatically re-routes the driver in case of a wrong turn.
